<!-- Detailed Cards -->
<div class="container">
    <div class="card">
        <h2>Foundation</h2>
        <p>Universiti Malaysia Terengganu (UMT) was officially established in 1993 with a primary focus on marine and fisheries sciences. Its founding vision was to nurture knowledgeable graduates who could contribute meaningfully to national development, particularly in maritime and aquatic sectors. Over time, UMT has grown into a comprehensive university, incorporating diverse fields of study while maintaining a strong commitment to research and sustainability.</p>
    </div>
    <div class="card">
        <h2>Growth</h2>
        <p>From its early beginnings, UNT expanded its faculties, academic programs, and research facilities. Today, the university offers a wide array of disciplines, including computer science, applied sciences, business, social development, and environmental studies. UMT has also established collaborative partnerships with national and international institutions, creating opportunities for research, innovation, and student exchange programs.</p>
    </div>
    <div class="card">
        <h2>Achievements</h2>
        <p>UMT has achieved recognition for excellence in marine science research, innovative technology development, and quality education. The university has produced numerous award-winning research projects, contributed to policy-making in sustainable fisheries, and continuously nurtures students to become leaders in their respective fields. Its commitment to academic and research excellence has positioned UMT as a leading institution in Malaysia and Southeast Asia.</p>

Achievements at UMT

Universiti Malaysia Terengganu is committed to academic excellence and research. The achievements reflect UMT's dedication to providing quality education and contributing to the development of the community.

Academic Excellence

UMT consistently produces graduates who excel academically and professionally. Students achieve top honors in national and international competitions, and many alumni contribute significantly to their respective fields. The university emphasizes both theoretical knowledge and practical skills, ensuring students are well-prepared for global careers.

Research Achievements

UMT has become a leading research hub in marine science, fisheries, environmental sustainability, and technology innovation. Faculty members and students publish high-impact research papers, secure grants, and collaborate with industry and international partners, contributing valuable solutions to real-world problems.

Community Engagement

UMT actively participates in community development and social responsibility projects. Programs include environmental conservation, educational outreach, and technology transfer initiatives. The university fosters partnerships with local communities to apply research and knowledge for societal benefit.

International Recognition

UMT has earned recognition from international bodies for academic excellence, research impact, and sustainability practices. Collaborative programs with global universities and participation in international conferences demonstrate the university's commitment to global standards of education and innovation.

 Universiti Malaysia Terengganu

Home About Faculty Contact

Faculty of Computer Science & Mathematics

Universiti Malaysia Terengganu offers programs in Computer Science (Software Engineering), Computer Science (Mobile Computing), Computer Science (Maritime Informatics), Mathematics & Data Analytics, and Statistics.

Computer Science (Software Engineering)
Master software design, algorithms, and full-stack development.

Computer Science (Mobile Computing)
Develop mobile apps and modern software solutions for smartphones and tablets.

Computer Science (Maritime Informatics)
Learn IT solutions for maritime industries, including navigation systems and data management.

Mathematics & Data Analytics
Analyze data, apply statistical methods, and solve real-world problems with mathematics.

The screenshot displays the Faculty of Business, Economics and Social Development website. At the top, there's a purple header bar with the university logo and navigation links for Home, About, Faculty, and Contact. Below the header is a large hero section featuring a group photo of students and faculty. The main content area contains five program cards, each with an image, title, and brief description:

- Bachelor of Economics (Natural Resources)**: Study markets, policies, and natural resource economics.
- Bachelor of Counselling**: Learn psychological support, guidance, and mental health practices.
- Bachelor of Finance**: Master financial management, investment strategies, and planning.
- Bachelor of Management (Marketing, Policy Studies, Tourism)**: Learn management strategies across marketing, policy, and tourism sectors.
- Bachelor of Accounting**: Develop expertise in accounting, auditing, and financial reporting.
